

Restoring vision and hope to thousands in Southeast Asia

Oct 14, 2021

Did you know you know that 2.2 billion people around the world suffer from impaired vision? Or that almost half of these cases of vision loss could have been prevented or are yet to be addressed?

At Novartis, we're proud that the Collaboration to Preserve Sight has expanded equitable access to eye care for thousands of people in Southeast Asia over the past year. People like Edwin and Leonora whose stories we invite you to read here: [Restoring vision and hope to thousands in Southeast Asia | Novartis](https://www.novartis.com/sg-en/stories/restoring-vision-and-hope-thousands-southeast-asia)
